

Maximizes Profitability & Chair Time

How AvaDent Helps Dentists Produce More, Without Working More

In today's dental practice, chair time is your most valuable asset. Every unnecessary appointment, adjustment, or remake doesn't just cost time, it costs revenue.

At an average of **\$700 per hour** of chair time, inefficiency adds up quickly.

The Traditional Denture Problem:

- 5 or more clinical appointments
- 3-5 adjustment visits after delivery
- Significant non-productive chair time
- Frustrated patients and overworked staff

Those adjustment appointments are typically **unpaid**, yet they consume valuable time that could be spent on revenue-generating procedures.

The AvaDent Advantage A 3-Appointment Denture Workflow

AvaDent's digitally designed dentures are engineered for **fit, accuracy, and predictability**, allowing most cases to be completed in just **three appointments, with some dentists doing it in only two**:

1. Records Appointment
2. Try-In / Verification
3. Final Delivery

Because AvaDent dentures are designed using advanced digital workflows, predictive occlusion software, and precision manufacturing, doctors experience:

- Nearly zero adjustment appointments
- Consistent first-time fit
- Less chair time spent troubleshooting.
- More confidence at delivery

What That Means For Your Practice

01 More Revenue Per Day

By eliminating multiple adjustment visits, you free up hours of chair time each week. At **\$700 per hour**, just:

- Three eliminated adjustment appointments = **\$2,100 reclaimed**
- Per week = **\$100,000+ annually** in potential production

02 Happier Patients = More Referrals

Predictable outcomes lead to:

- Fewer post-delivery issues
- Higher patient satisfaction
- Stronger word-of-mouth referrals
- Less stress for your team

02 A Supportive Partner, Not Just a Lab

Doctors consistently describe AvaDent as:

- Reliable
- Supportive
- Efficient
- High quality

Our team works closely with your practice to ensure success, case after case.

Designed for Predictability. Built for Profitability.

AvaDent isn't about doing more work; it's about working smarter. When your dentures fit the first time, your schedule runs more smoothly, your patients are happier, and your practice becomes more profitable without adding hours to your day.
